City of Milton

Im writting in response to a tree that's in my front yard. That was once used to be lush and beautiful, its now just about completely dead, Since the Sidewalk was put in 5-6 yrs ago. I believe all the diggers and cutting of the roots tree & killed the tree I am asking the City to replace The tree include grinding the ~~stump~~ down and replacing with a new tree.

also they cracked a large area of my Driveway when they (the City) was was putting in the Sidewalk. the City had been putting there equipment on the driveway which was to heavy for the driveway

Howie came and took pictures when I called him right away I did inform Howie I had just put the driveway in a year before that. and as a result it wasn't not fixed and is still cracked.

I am also asking the City to ask Mr. Dave Schumaker to keep his weeds under control each year at the End of East Evergreen Ln. The weeds are totally out of control and each year I am always fighting to keep them down. I had house up to show him the driveway, tree & The weeds that have taken over part of my yard.

Sincerely,

Sarah Nutson
39 E. Evergreen Ln.
