

Office of the Finance Director/Treasurer

To: City of Milton Common Council
From: Dan Nelson, Finance Director/Treasurer
Date: January 5, 2016
Subject: Discussion and Possible Action regarding easement for booster project on Pierce Farms property

Discussion

As part of the booster station project to improve the water pressure in the low pressure zone, an easement for water mains is required through farm fields owned by Pierce Farms. They had requested compensation for this public improvement. Staff negotiated an easement unit value that is similar to what was received for the gas line easement this summer. Pierce Farms has agreed to \$5,000 for the attached easement, pending Common Council approval.

Recommendation

Approval of \$5,000 easement for Pierce Farms for water main improvements related to the booster station project.
