

Office of the Director of Public Works

To: City of Milton Public Works Committee
From: Howard Robinson, Director of Public Works
Date: February 2, 2016
cc: Mayor Anissa Welch, Common Council Members
Subject: Discussion and possible action on 2016 Sidewalk Plan

Discussion

Included is a map of the current location of sidewalks in the City of Milton. The sidewalks that are listed as planned had been previously listed as pedestrian areas near schools/parks, or are connecting sidewalks to close gaps.

We have \$25,000 in the budget to install or repair sidewalks. Two areas that could be completed are:

1. Sidewalks on Northside Drive from the existing sidewalk to the Public Works Garage. We have received two requests from residents on Northside Dr. for the Northside sidewalk; one to do it and one not to do it.
2. Sidewalk gap on Brown Drive from Arthur Drive to Blanche Drive.

The other unplanned sidewalk on the map will be installed at some time as budget allows. I am requesting permission to obtain quotes for these two sidewalk sections. If the quotes are favorable, any remaining funds will be used for repairs to existing sidewalks in various parts of the city.

Other areas that will need sidewalk at some time are the frontage road area to City Hall and the area around S. Goodrich Park. The park area could wait until parking lot designs are final. The area in front of Well #2 will receive a sidewalk as part of the Well #2 construction. The sidewalk on the frontage road would be installed at some time when the frontage road is reconstructed and is not on any plans for the next few years.

Staff Recommendation

I am requesting permission to request bids for concrete work including the sidewalks on Northside Drive and Brown Drive with any remaining funds to be used for sidewalk repairs in various parts of the city.
