Subject: Discussion and Possible Action Regarding Parking on South Janesville Street

Summary

With the parking lot improvements completed at Milton East Elementary School, there will be changes where parents will be picking up and dropping off children. There is a new parent parking area on the east side of the building along Janesville Street where picking up and dropping off children will occur. Principal Jen Cramer has approached me to see if parking could also be allowed on the west side of South Janesville Street adjacent to the Milton East property. Currently, that area is signed "No Parking During School Hours" with a single sign. Allowing street parking at this location will supplement the new parking lot and will allow parents in vehicles with children direct access to Milton East property without having to cross Janesville Street.

Recommendation

This item is presented for discussion and review without recommendation from me at this point. As I'm not sure of the historical context of this restriction, I would like to explore the issue further prior to providing a recommendation.
