

## Office of the Director of Public Works

**To:** City of Milton Public Works Committee  
**From:** Howard Robinson, Director of Public Works  
**Date:** September 6, 2016  
**cc:** Mayor Anissa Welch, Common Council Members  
**Subject:** Discussion and Possible Action on a Possible Water Main Extension on Vincent Street – Requested by the Resident at 419 Vincent Street.

---

### **Discussion**

Steve Carroll owns the property located at 419 Vincent Street. He currently has a private well. His current well will soon need repairs or replacement. He approached us about connecting to the city water main. Currently, the water main ends at Capman Street. Water main installation would cost us an estimated \$100/ft. He would have to pay his frontage amount or ½ the cost as assessment. We discussed with him that when a main extension occurs we go to the end of full length of the property. He is interested in having a main installed and understands the assessment. He would also like to use the city assessment payment structure for payments.

### **Staff Recommendation**

I am requesting permission to get planning, possible bids, and costs for this extension, along with an agreement from the property owner concerning the assessment cost.
